Anti-Mould- Additive Concentrate

Technical information sheet

BAuA-Reg.-Nr.: (D): N-43437

250ml / Item number 101780 / EAN 4016215101780

Highly effective, long-lasting sanitising concentrate for the reliable control of mould and algae growth. Ideal for preserving and protecting water-based products against microbial growth. The effective formulation has a preventative and lasting effect, is versatile in use and contributes to long-term quality assurance. For professional applications where cleanliness, protection and durability are key.

- Fungicidal colour additive
- Protects water-based products from mould and algae infestation
- with long-term effect
- Mixing ratio 1:40 - 250ml concentrate for 10 litres of paint etc.
- Use biocidal products with care. Always read the label and product information before use

Area of application

Mould protection against mould and algae infestation. Protects emulsion paints, adhesives, wallpaper paste and glue, suitable for indoor and outdoor use. for renovation.

Processing

Stir 250 ml of baufan Anti-Mould Concentrate thoroughly into 10 litres of emulsion paint and process the paint as usual. The same mixing ratio also applies to latex, silicone resin and siloxane paints, mixed wallpaper paste and similar water-based products.

Storage

Store in a cool, but frost-free place. Keep container tightly closed and separate from food. Keep out of the reach of children.

Notes

Clean tools with water after use. Do not allow to enter the sewage system or bodies of water. Only dispose of empty containers for recycling. Dispose of product residues according to EWC waste code no. 07 04 04.
