

- for killing mould, algae, mildew stains and bacteria
- acts immediately
- with active chlorine

Mould Remover

Use

For removing mould, algae, mildew stains and bacteria from various substrates.

Constituents

Aqueous sodium hypochlorite solution

Substrate

For all mineral substrates, e.g. plaster, render, concrete, ceramic tiles, clay bricks/blocks and emulsion paint coats. Sensitive and colour materials, e.g. wallpaper, wood, textiles, cork, metals and plants, may be susceptible to discoloration.

Application

Spray Mould Remover onto mould-infected surface from a distance of approx. 15 - 20 cm. Allow to work for approx. 30 minutes, then wipe down treated surface with damp cloth. Repeat procedure in case of very heavy infection. For long-term protection of cleaned surfaces from renewed mould infection, these can be additionally treated after three days with **baufan**[®] Anti-Mould-Additive Concentrate or **baufan**[®] Anti-Mould-Paint.

Application produces slight chlorine odour which persists for up to 3 days and can be alleviated by adequate/intermittent ventilation of treated space.

Sensitive and colour materials, e.g. wallpaper, carpets, textiles, clothing, wood and metals, may suffer surface discoloration. Tiles with surface damage may likewise be susceptible to discoloration. Protect areas not to be treated from spray mist and splashes. Immediately remove accidental splashes with water.

Consumption

Approx. 50 - 100 ml/m²

Application temperature:

Minimum + 5 °C for material and ambient air

Note

Danger

Causes severe skin burns and eye damage. Very toxic to aquatic life. May be corrosive to metals. Keep out of reach of children. Do not breathe spray. Use only outdoors or in a well-ventilated area. Wear protective gloves/eye protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF ON SKIN: Wash with plenty of water and soap. Avoid release to the environment. Warning! Do not use together with other products. May release dangerous gases (chlorine).

Contains: Sodium hypochlorite solution <5 % active chlorine

Medical emergency number: +49 (0) 551/1 92 40

GISBAU product code: GS90

Biocidal Products Regulation (528/2012/EU):

Aqueous disinfectant (50 - 100 ml/m² surface)

100 g contain: 99.6 g sodium hypochlorite solution, < 5% active chlorine

BAuA (German Federal Institute for Occupational Safety and Health) reg. number: N-14469

Please exercise care in the use of biocidal products. Always read the label and product information prior to application.

Do not allow to enter drains, sewers, surface waters or ground. Hand over only fully emptied containers for recycling.

Storage

Store in cool, though frost-free environment in properly sealed containers. Minimum shelf life in unopened containers subject to proper storage: see batch label.

Item No.

101797

500 ml

Spray bottle
