

- **powerful and thorough**
- **removes several coats in single operation**
- **also adheres to vertical surfaces, acts after only approx. 1 hour**
- **exempt from labelling requirements under VbF (German Combustible Liquids Ordinance), CHC- and NMP-free**

Universal Paint Stripper

Use

baufan[®] Universal Paint Stripper is suitable for removing oil paints, synthetic resin coatings and emulsion paints as well as for cleaning rock-hard brushes (excluding plastics bristles).

Constituents

Butyl acetate, dimethyl sulphoxide and thickening agents

Substrate

Universal Paint Stripper does not attack wood, metal or masonry substrates. It may attack plastics and non-solvent-resistant substrates. Free from dichloromethane and N-methyl pyrrolidone.

Application

Mask adjoining surfaces and surfaces not to be stripped with sheet to protect from splashes!

Apply baufan[®] Universal Paint Stripper generously with brush and allow to work. For difficult-to-strip paint coats, remove softened layer with spatula and repeat procedure. Then wash down surface with water or thinner.

Consumption per coat

Approx. 300 – 600 ml/m²

Application temperature

+5 °C to + 30 °C for material, ambient air and substrate

Note

Warning

Flammable liquid and vapour. May cause drowsiness or dizziness. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames. Avoid breathing vapours. Wear protective gloves/eye protection. Repeated exposure may cause skin dryness or cracking. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If medical advice is needed, have product container or label at hand. Dispose of contents/container in accordance with local/regional/national/international special waste disposal regulations.
