

Modelling plaster for construction and hobbies

Modellgips für Bau und Hobby

Pure natural gypsum for handicrafts and repair works

Instructions for use:

Modelling plaster for construction and hobby is suitable for fixing plugs, sockets and other construction elements as well as for filling holes and casting figures.

Technical specifications:

Components:	natural gypsum
Density:	approx. 750 g/cm ³
pH-value:	approx. 7.5
Mix ratio:	as filler: 2.0-2.2 kg in 1 l water as casting mass: 1.5 kg in 1 l water
Working time:	approx. 10 minutes

Preparation of surface:

The surface must be dry, firm and free of release agents). Prime highly absorbent, sanding and chalking surfaces with *PUFAS Deeply-Penetrating Primer – solvent free*.

Application:

Fill clean, cold water into a clean container and sprinkle *PUFAS Modelling plaster for construction and hobby*. Stir well, so that a lump free mass is the result. The stirred gypsum mass is approx. 10 minutes usable.

Clean tools in water immediately after use.

Storage:

Store in a cool and dry place!

Available sizes:

Paper bag of 1.5 kg	003315000
Paper bag of 5 kg	003313000
