

Fresh Joint Complete Set

FrISChe Fuge

Set with brush and sponge for the renovation and refresh of tile joints.

Instructions for use:	<i>PUFAS Fresh Grout</i> is suited for refreshing joints in ceramic and glass tiles, clay tiles and mosaic. <i>PUFAS Fresh Grout</i> is scrub, light and mould resistant. Not suited for silicon joints or similar joint sealing materials.	
Technical specifications:	Basic raw materials:	synthetic resin emulsion
	Colour:	white
	Density:	approx. 1.60 g/cm ³
	pH-value:	approx. 8-9
Preparation of surface:	The joints must be dry, firm and free of release agents. Remove dust, grease, soap residues etc. using abrasive. Use eventual a joint sander for joints in old bathrooms. Cover porous, matt and unglazed tiles.	
Application:	Shake the bottle well. Apply <i>PUFAS Fresh Grout</i> to the joint using the enclosed brush. After completely dryness (approx 60 min.) moisten the tiles with a damp cloth and remove paint from the tiles, using the enclosed sponge. Remove the final remains and smear with a dry cloth. <i>PUFAS Fresh Grout</i> can be tinted using <i>PUFAS Tinting paints</i> (max. 5 %). Do not use at surfaces or in rooms below + 5° Celsius! Clean tools with water immediately after use.	
Storage:	Store in a cool, but frost-free place! Keep container tightly closed!	
Available size:	<u>Set:</u> 250 ml PE bottle 1 brush 1 sponge	006101001
